

CHICAGO OPENS WAR FOR TEN CENT LOAF

Leading Bakers Are Called on to Explain Why They Charge 12 Cents.

HOUSEWIVES WILL LEAD

Bake-Your-Own Loaf Campaign to Be Carried on All Over City.

Special Despatch to THE NEW YORK HERALD. CHICAGO, Nov. 13.—Announcing that he will organize a bake your own bread campaign among Chicago housewives if the bakers' price does not come down, Russell J. Poole, secretary of the Council H. C. of L. Committee, prepared to-day for an onslaught against the 12 cent pound loaf.

As a preliminary to the attack, officials of Chicago's leading baking companies will be questioned Monday regarding the costs entering into their product.

"Wheat is almost down to pre-war prices," said Mr. Poole. "There is no reason why even small bakers should not make bread for eight cents a pound and big bakers should do still better. That means 10 cent bread and a good profit for both wholesaler and retailer."

Mr. Poole submitted the following schedule of costs for a sixty loaf lot in proof of his contention:

Fifty pounds of wheat flour.....\$2.30

One-half pound of yeast......15

One pound of lard......25

One and one-half pounds sugar......35

One-half pound of salt......02

Labor......1.61 1/2

Overhead......40

Twelve quarts of water......40

Total.....\$4.80 1/2

HAZING AT ANNAPOLIS AROUSES SEC. DANIELS

Favors Wholesale Expulsion to Enforce Orders.

WASHINGTON, Nov. 13.—Declaring that the Navy Department would "go the limit" to uphold the authorities of the Naval Academy at Annapolis in their efforts to stamp out hazing at the institution, Secretary Daniels announced to-day that instructions had been issued that no hazing would be tolerated, and that any number of midshipmen would be dismissed necessary to end the practice.

"I would rather have 800 men at Annapolis who can obey orders than 2,300 who cannot," said Mr. Daniels. "When I came into the Navy Department there were only 800 students at the Academy, and although there are 2,300 now the navy would survive if the number were reduced to 800 again. The presence of insubordinate midshipmen is not desired. Men who are being trained to give orders must first of all learn to obey."

No new cases of hazing have been reported as a result of the investigation now being conducted under the direction of Rear Admiral Scates, superintendent of the Academy, Mr. Daniels said. One midshipman already has been expelled, the Secretary announced, adding that he had entire confidence in Rear Admiral Scates's ability to handle the situation.

GOODYEAR MISSES 1ST DIVIDEND IN 22 YEARS

Passing of Common Follows Refinancing Programme.

Special Despatch to THE NEW YORK HERALD. AKRON, Ohio, Nov. 13.—For the first time in its twenty-two years of existence the Goodyear Tire and Rubber Company of this city to-day passed the regular quarterly dividend on common stock.

Goodyear outstanding common stock exceeds \$61,000,000. Outstanding preferred stock approximates \$39,000,000. Action on the regular quarterly dividend on preferred stock will be taken in January. Common paid 12 per cent annually up until the last meeting, when the dividend was reduced to 10 per cent.

Passing of the Goodyear dividend to-day came close upon the heels of official confirmation of the fact that the company's programme of refinancing had been successfully consummated to the extent of \$25,000,000 with a syndicate of banking interests headed by Goldman Sachs of New York. The company assigns its inventories of finished product as security, but announces that the refinancing places no incumbrances upon the company's plant, nor does it in any way affect the present ownership or management.

HOLIDAY FOR ELEVATOR.

Oswego to Celebrate Start on First State Structure.

Special Despatch to THE NEW YORK HERALD. OSWEGO, Nov. 13.—Mayor John Fitzgibbon has declared Thursday, November 13, a civic holiday here, and preparations are being made to celebrate the breaking ground for the building of a new grain elevator by the State of New York at the mouth of the Oswego River on Lake Ontario.

Unusual importance attaches to the event for the reason that both Gov. Smith and Gov.-elect Miller have accepted invitations to participate in the ceremonies, and it will be their first meeting since before election. Other dignitaries present will include members of the State Canal Board, Lieut. Gov.-elect Wood, Representative Dempsey of Niagara Falls, the next chairman of the Rivers and Harbors Committee of the House of Representatives, and Representative Luther W. Mott of the Oswego district, chairman of the dedication committee.

It will not only be the first grain elevator to be built by the State of New York, but the first elevator owned by any State except Louisiana. The contract price is around \$1,000,000.

VESSEL CALLS FOR AID.

NEWPORT, Va., Nov. 13.—Radio calls for assistance were received here to-day from the American steamship Cranford, which reported that she was seventy miles east of Cape Henry with three of her boilers out of commission, and that she was being blown north rapidly by a heavy gale. The Coast Guard cutter T-10 was dispatched to her assistance.

HOOVER TO MEET LABOR.

WASHINGTON, Nov. 13.—Herbert Hoover, former Food Administrator, and member of the President's second industrial conference, is expected to meet with the executive council of the American Federation of Labor early next week to discuss the question of cooperation of labor officials and scientists to promote improved working conditions and increased production.
